

ABOUT SUNSET STRIP:

Sunset Strip was founded by Front Man Jay Tee and Guitarist Mike D. in 2014. It was their vision to redefine what the "Rock Cover Band." The market was littered with "bar bands" that brought a very pedestrian show and offered little in the way innovation on their musical arrangements. Crowds are turning up less and less. People want to be entertained. That goes well beyond just sounding good. Bands must put on a show. Thus, JayTee and Mike went to the drawing board. So the big question was, what makes for a successful show? And what will make people come back again and again?

Well for starters, the band must consist of "pro-level" musicians. The band HAS to be able to play, and play really well. Second, you can't just play the hits; a unique approach has to be taken. Sunset Strip is known for their medleys and unique mashups of songs of varying song styles. This approach keeps the songs fresh and unique for the audience. Third, stay away from cartoonish dress. Wearing wigs and spandex has been done to death. Sunset Strip approached their look from the standpoint of what do their heroes from the 80's metal scene look like now? They have abandoned those outdated looks, so should Sunset Strip. It was their goal to pair a modern sound and an edgy modern look with the classic tunes. And fourth, and MOST important, the stage and show has to be BIG! Dancers, lighting, graphics, cryo and more! Sunset Strip has a warehouse full of staging and graphics to bring the "bling" to any stage; big or small. What made the Sunset Strip era bands so exciting was the big, bold stages and theatrics. In the end, that feel must be in each Sunset Strip show. And finally, cater to the ladies! Sunset Strip pays close attention to winning the hearts of the girls so they continue to come back, and even better, spread the word!

Sunset Strip stays true to this formula. From their live show to their marketing and promotional materials, innovation and creativity are at the heart. Just look at this book!
